PROFESSIONAL SUMMARY

Information Technology undergraduate with strong skills in Java backend development, Spring Boot, JDBC, REST API development, Docker, Kubernetes, and cloud deployment. Passionate about scalable software systems, distributed systems, microservices, and full-stack application development. Seeking Software Engineering internship opportunities.

EDUCATION

B.Tech Information Technology | Dhanalakshmi Srinivasan University | 2024–2028

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL

Backend: Spring Boot, Spring Security, JDBC, REST APIs, WebSocket, STOMP

Frontend: React, TypeScript, Vite

Databases: PostgreSQL, MySQL, JPA/Hibernate

Cloud & DevOps: Docker, Kubernetes, Amazon ECR, Amazon EKS, GKE, AKS

Software Engineering: Distributed Systems, Microservices, API Design, System Design

Tools: Git, GitHub, Maven, Linux, Postman, Playwright

PROJECTS

Real-Time Chat Application

React • TypeScript • Spring Boot • Spring Security • JWT • WebSocket/STOMP • PostgreSQL • Playwright

- Developed a full-stack real-time one-to-one messaging application using React, TypeScript, and Spring Boot.
- Implemented secure user registration and login with JWT-based authentication and protected operations.
- Built bidirectional real-time messaging using WebSocket and STOMP with persistent message storage in PostgreSQL.
- Implemented timestamps and delivered/read message status tracking with a professional chat interface.
- Added an end-to-end testing foundation using Playwright.

Text-Based AI Chatbot

React • TypeScript • Spring Boot • Spring AI • Google Gemini • PostgreSQL

- Developed a full-stack text-based AI chatbot with a React + TypeScript frontend and Spring Boot backend.
- Integrated Spring AI with Google Gemini to generate AI-powered text responses.
- Implemented REST APIs using ChatController and ChatService for chat interactions.
- Built a responsive chat interface with user/assistant message bubbles, conversation sidebar, and new chat functionality.
- Designed Conversation and Message entities supporting USER and ASSISTANT roles; persistent history is planned as a future enhancement.

CORE COURSEWORK

Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

STRENGTHS

Problem Solving • Team Collaboration • Backend Development • Continuous Learning
